

Fact Sheet:

The 1st EANM Young Investigators Meeting

on the topic of

“Nuclear Medicine Imaging for Therapy Management in Oncology”

Vienna, April 23-24, 2009

Meet your European Peer Group!

Talented junior researchers in the stage of ongoing research or of writing the project proposal in Nuclear Medicine will be offered an extraordinary opportunity for scientific exchange and interaction with their European peer group.

All EANM National Societies nominate the most qualified junior researcher of the national Nuclear Medicine community by submitting the nomination form and the candidate's research abstract to the EANM Executive Secretariat.

Subsequently, the EANM Executive Committee will evaluate each candidate; and if qualified, these nominees will be invited to the EANM YIM 2009 “Nuclear Medicine Imaging for Therapy Management in Oncology”. The programme of this meeting will be structured on the basis of the abstracts of all participants' research projects. The aim of this meeting is to offer to the YIM participants a framework to present and discuss their research projects within their peer group. In order to ensure a successful meeting, the EANM Oncology Committee Chair will provide guidance in the preparation of the meeting programme and as moderator throughout the discussions.

Enjoy the YIM Participation in a Highly Comfortable and Professional Set-Up!

The meeting will be held at the EANM Educational Facility in Vienna, which draws on experience over several years in facilitating successful meetings and hosting the Nuclear Medicine community with great dedication.

YIM participants will be hosted in the Hotel City Central Wien <http://city-central.schick-hotels.com/en-index.htm> - which is in walking distance to the EANM Educational Facility and the Inner City of Vienna.

A time-efficient schedule foresees the participants' arrival in the morning of Saturday, April 23, 2009. Half of the YIM Session will take place in the afternoon of the arrival day – followed by a joint dinner. On Sunday morning, the second half of the YIM will take place. Departure will be in the afternoon/evening of Sunday. The 50% of the meeting will be dedicated to presentations and 50% to discussion.

The European Nuclear Medicine Community invests in you!

The participation will be free of charge for all young investigators: the EANM will cover the hotel and catering costs of the YIM participants. The National Societies will cover the travel costs.

We are looking forward to meet and welcome the experts of tomorrow!
