Předmět: EANM 30TH Annual Conference - FREE Live Stream

30th Annual Congress of the European Association of Nuclear Medicine

FREE LIVE STREAMING

Dear Colleagues,

Due to the rapidly evolving nature of the nuclear medicine field, we are committed to supporting the multidisciplinary team of professionals working in this area to keep abreast of new developments and emerging clinical applications.

Efforts from international organizations such as the International Atomic Energy Agency (IAEA) and the European Association of Nuclear Medicine (EANM) are vital in supporting professionals in maintaining their competencies through Continuous Medical Education.

For this reason, the IAEA and EANM are collaborating in order to provide free access to the live streaming of the **30th Annual Congress of the European Association of Nuclear Medicine, from October 21 - 25, 2017**, to be held in Vienna, Austria.

The live streaming will be free of charge to an unlimited number of viewers from all IAEA Member States. Please note that you need to register in advance for the free live streaming. All registered participants will have access to recorded sessions.

You may kindly pass this information on to your colleagues working in the field of Nuclear Medicine, in order for them to benefit from this initiative too.

The IAEA together with EANM are hopeful that many professionals will take advantage of this initiative and benefit from the free live streaming.

I am looking forward to your participation, whether virtually, or in person, at the 30th Annual Congress of the EANM.

Best regards,

Diana Paez

Head Nuclear Medicine and Diagnostic Imaging Section
Division of Human Health - Department of Nuclear Sciences and Applications

REGISTER HERE

If you encounter issues during your registration please contact: registration@eanm.org

Access Anywhere

No matter where you are you can live stream the most important sessions

Multiple Devices

The live stream will be available on desktop and mobile devices

Secure Data

Register your personal details securely for access to live streaming
